CREW SUPPORT

Your crew network, cleared for takeoff

Platform overview & product walkthrough

Private aviation crew marketplace · iOS & Android

Hiring contract crew is still manual

Great crew exist. Finding them fast doesn't.

Calls, texts, lost contacts

Good crew met once are hard to find again

Documents in mixed formats

Passports, medicals and certificates sent by email

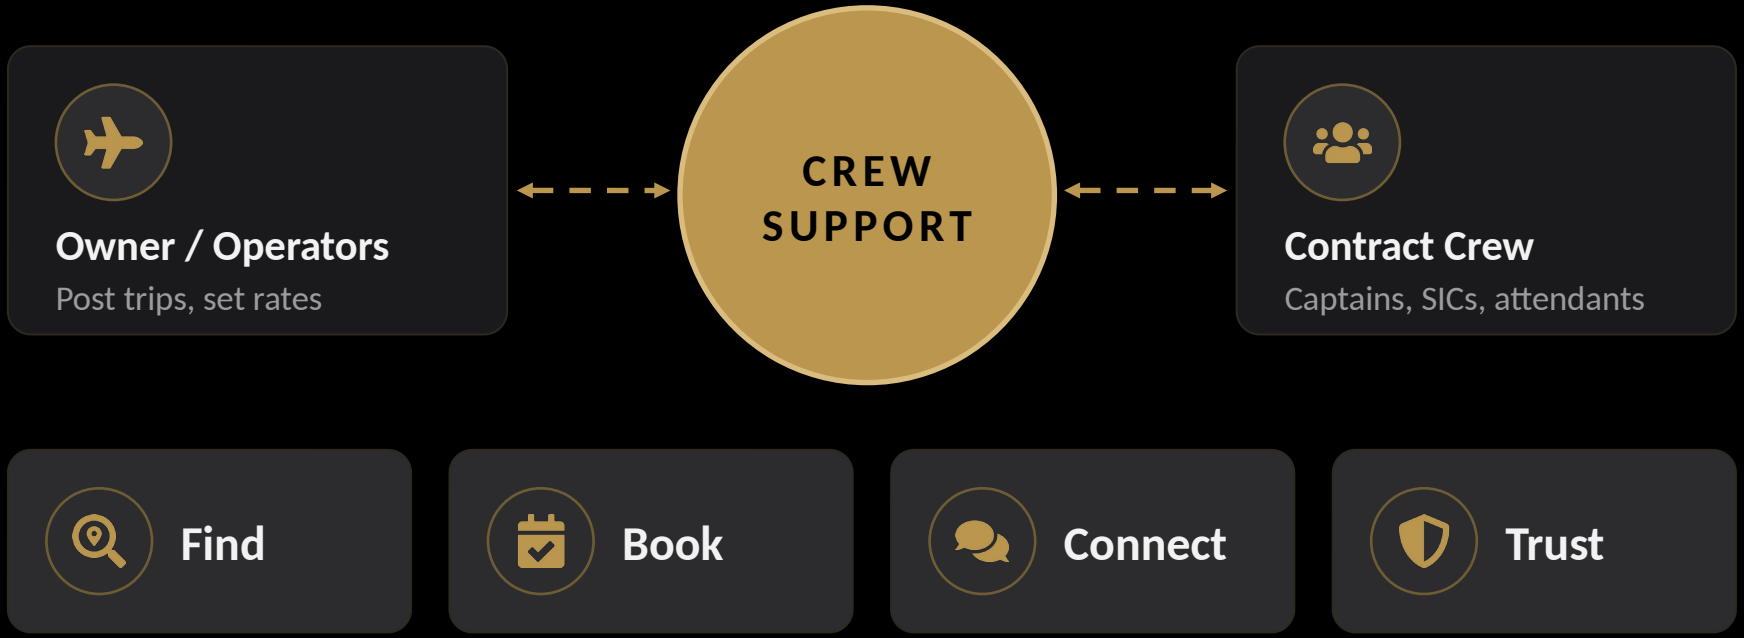

No live availability

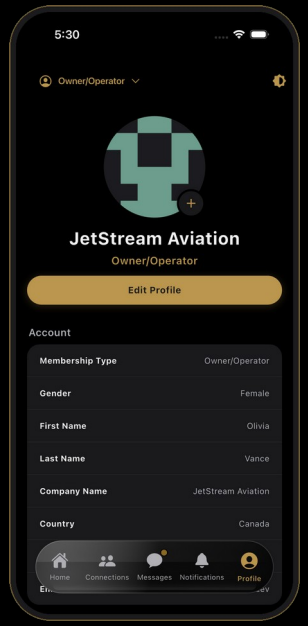

No way to see who is free, and where

One platform. Every seat filled.

A trusted marketplace between operators and crew

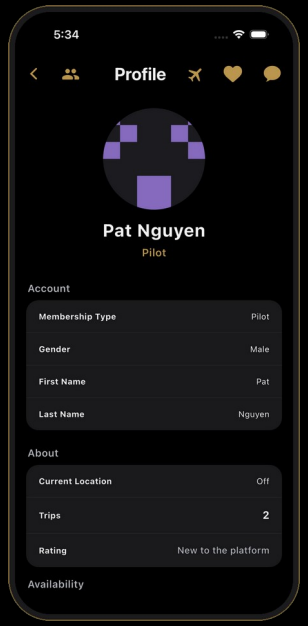

Built for three roles

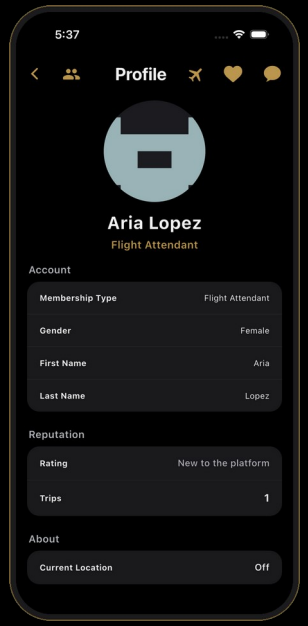

Owner / Operator

Posts trips, books crew

Pilot

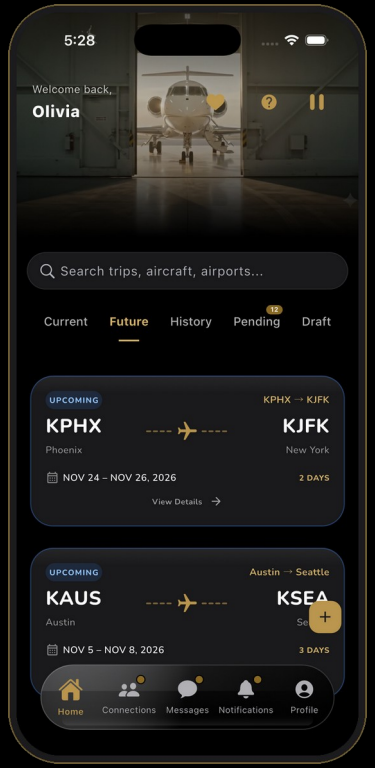

Captain or Second in Command

Flight Attendant

Cabin crew for any trip

Everything in five tabs

Home
Trips by status at a glance

Connections
Your trusted crew network

Messages
Direct chat with crew

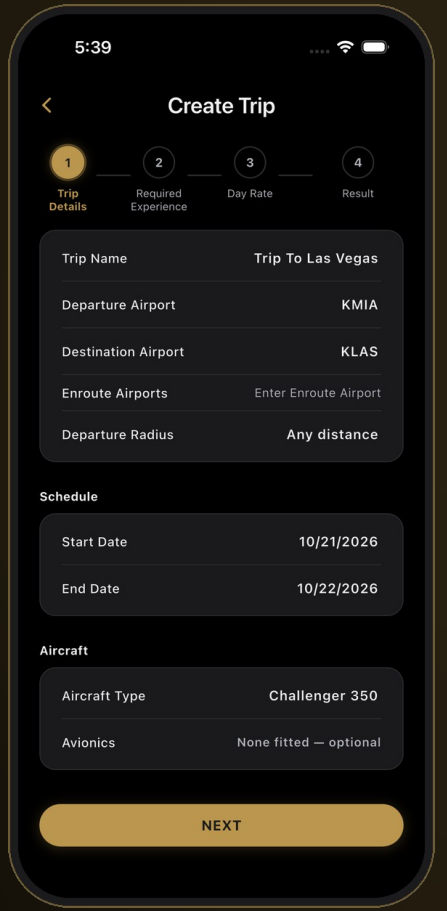

Notifications
Real-time trip updates

Profile
Credentials, ratings, availability

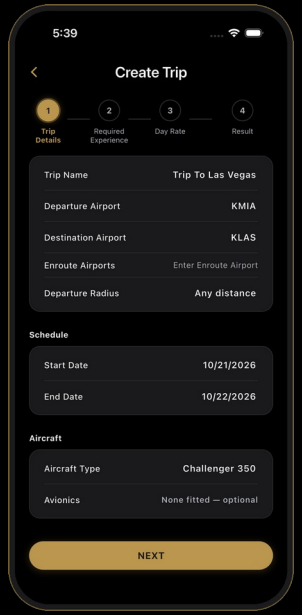

01

Operator journey

Post a trip. Fill every seat.

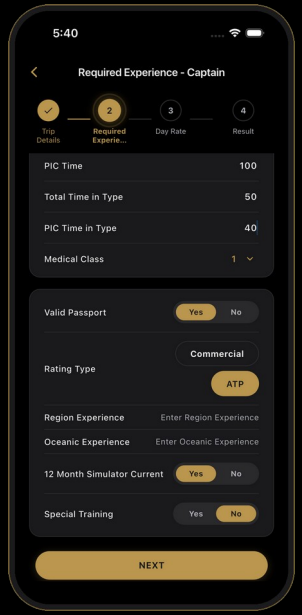

Create a trip in four steps

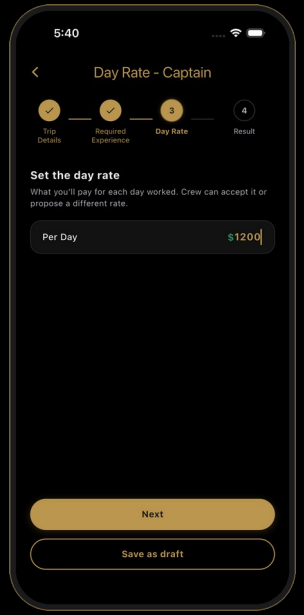

1

Trip details

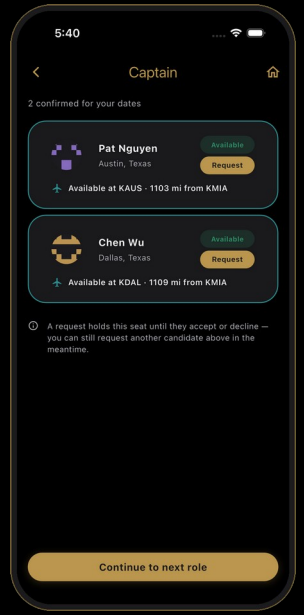

2

Required experience

3

Day rate

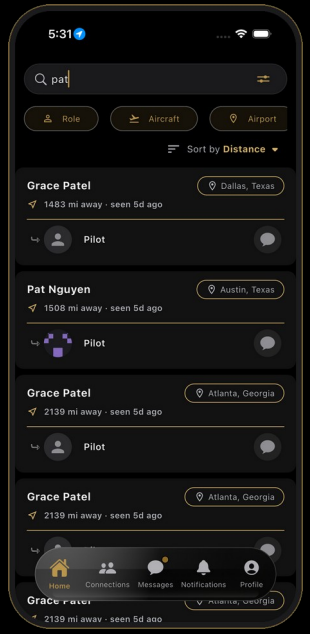

4

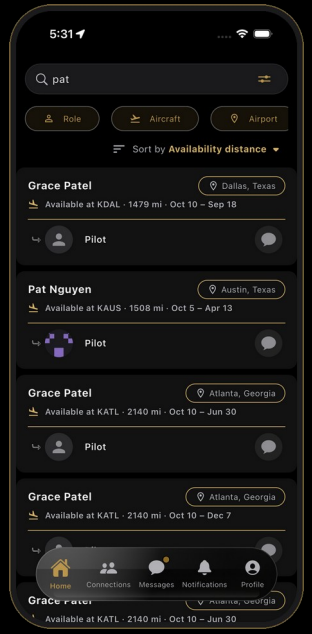

Matched crew

Proximity intelligence

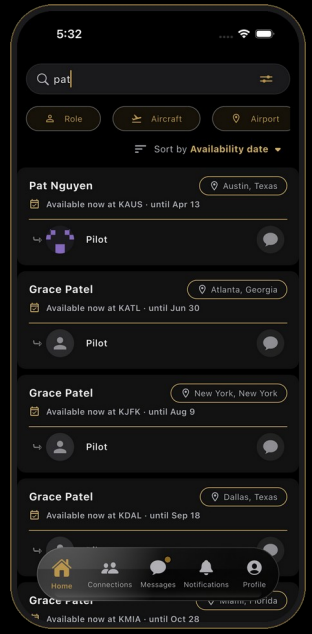

Search an airport. See who's available nearby.

Sort by distance

Availability by distance

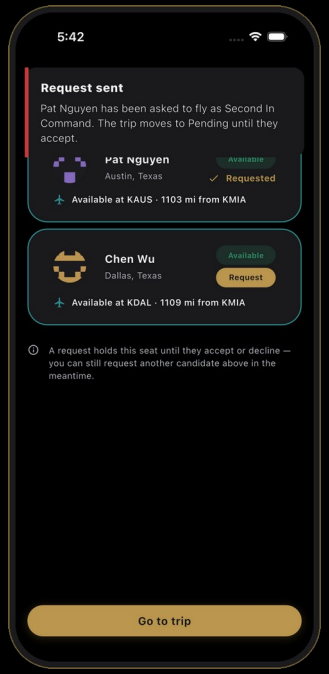

Availability by date

Filter by

- Role
- Aircraft
- Airport

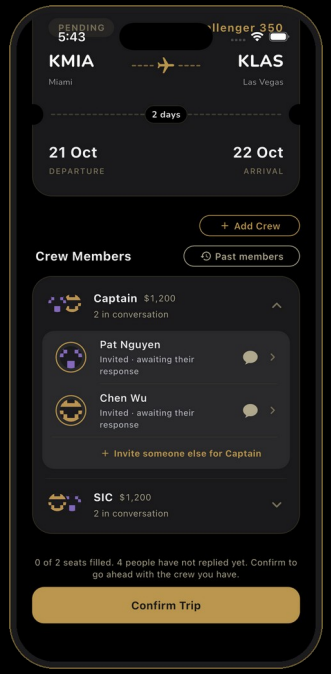

Ranked by relevance, distance or date

Request, track, confirm

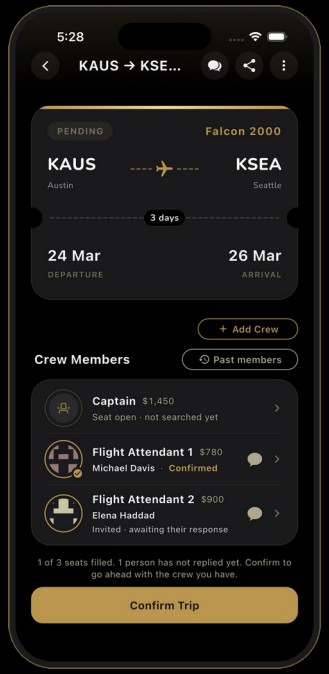

Request sent

Seat held until they reply

Crew by seat

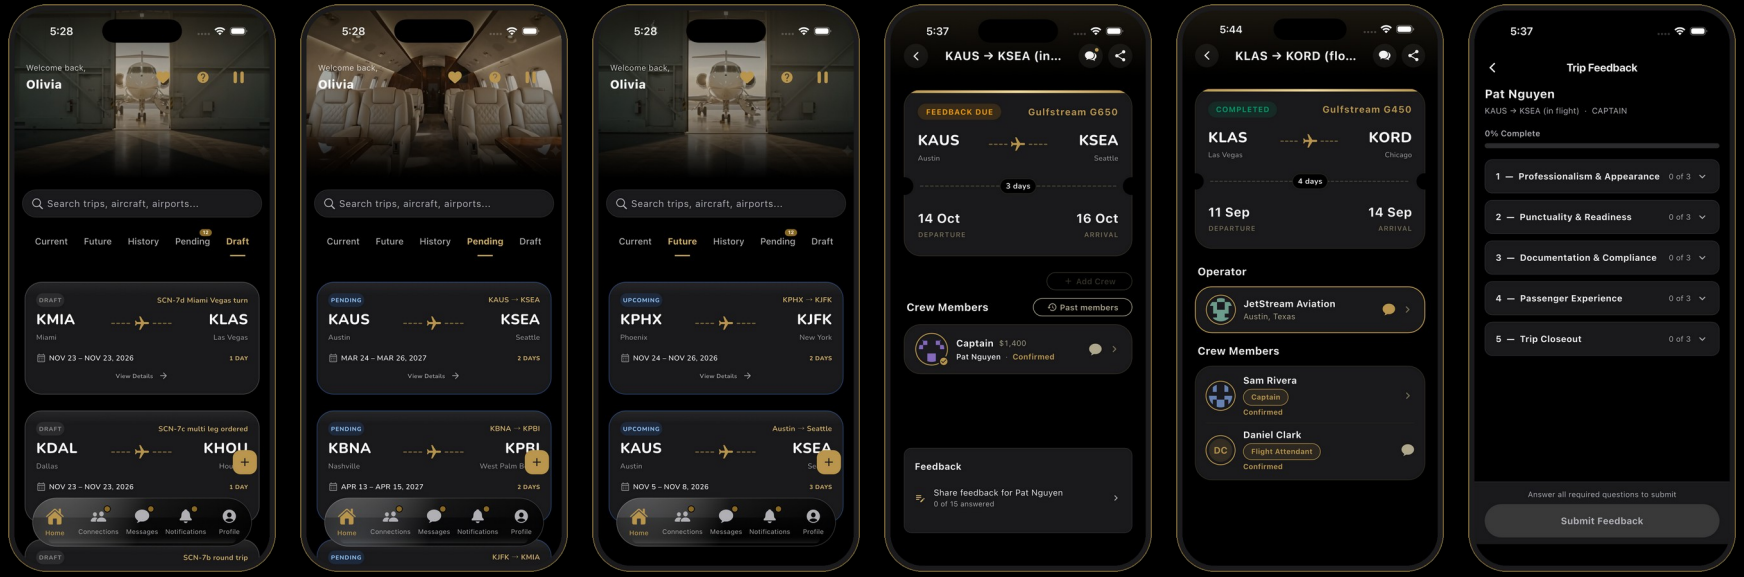

Rates and replies per role

Confirm trip

Go ahead with your crew

Every trip, one lifecycle

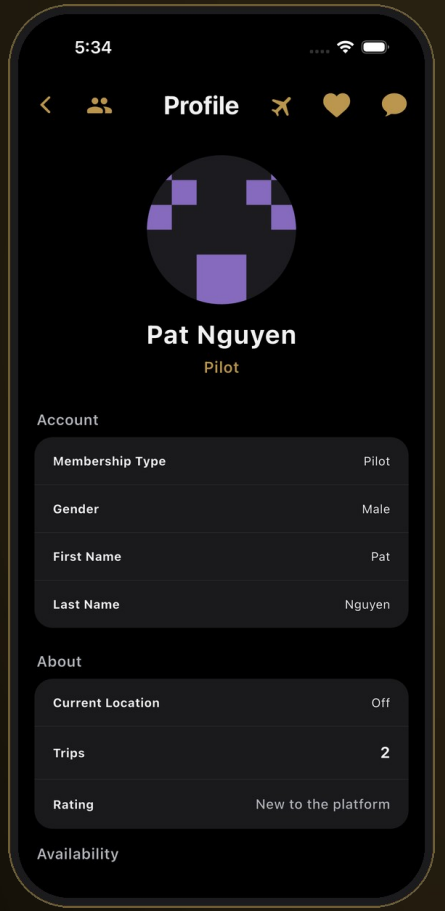

Draft — Pending — Upcoming — In flight — Completed — Feedback

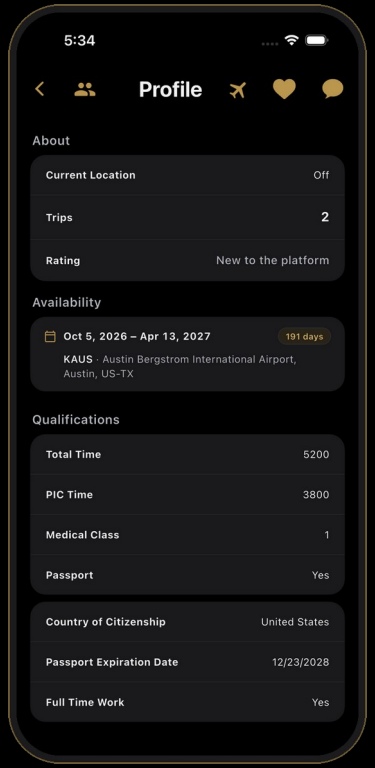

02

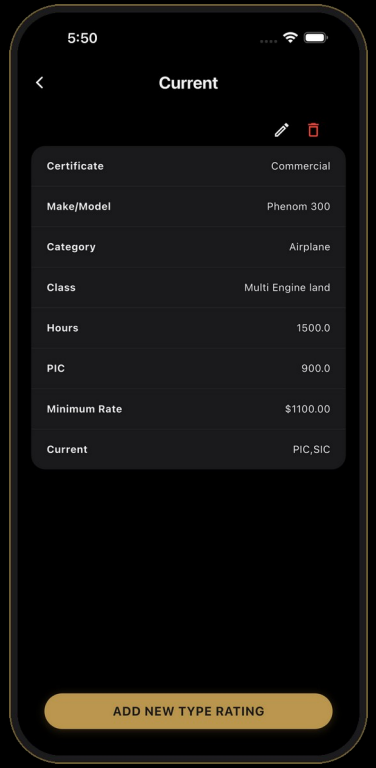

Crew journey

Get found. Get flying.

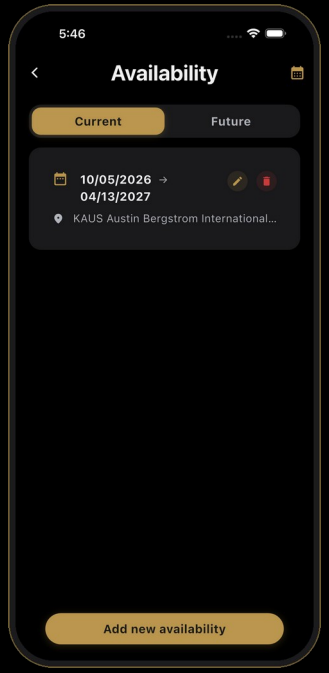

Your profile is your résumé

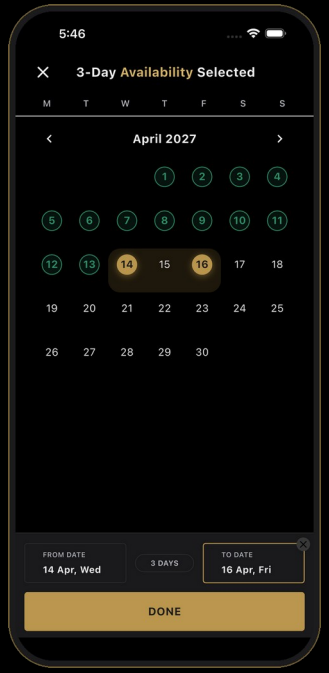

- Hours, PIC time, medical
- Type ratings and currency
- Aircraft and region experience
- Ratings and trip history

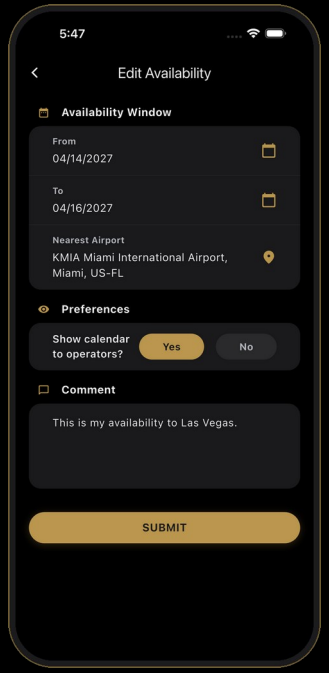

Set availability, get found

Your windows

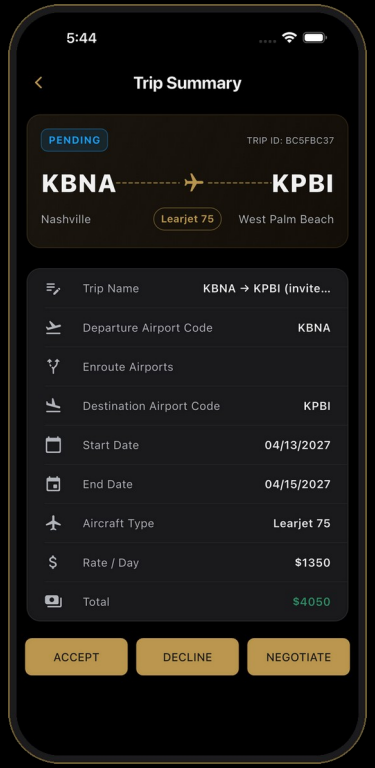

Pick dates

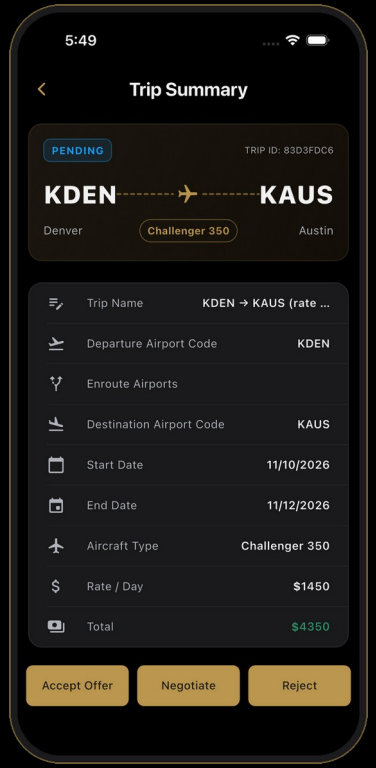

Airport and visibility

- Choose your dates
- Set your nearest airport
- Share calendar with operators
- Appear in nearby searches

Accept, decline or negotiate

ACCEPT

Lock in the trip

DECLINE

Pass, no awkward calls

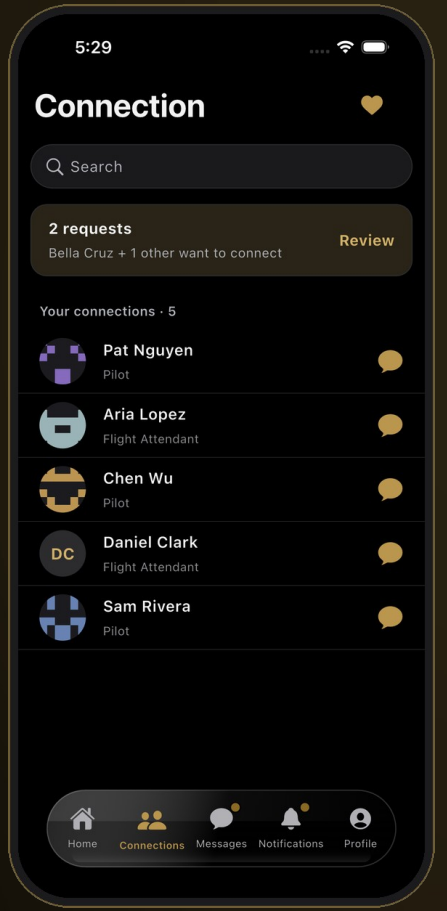

NEGOTIATE

Propose your own rate

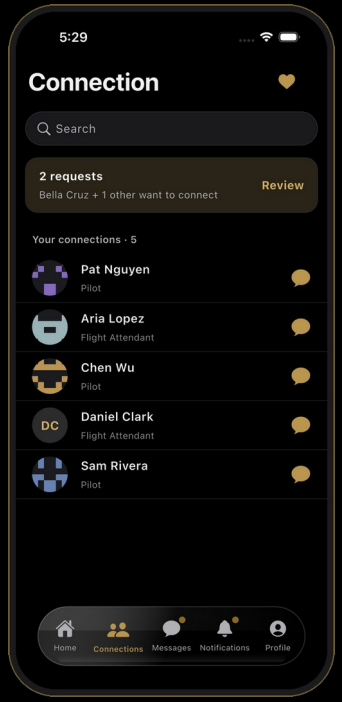

03

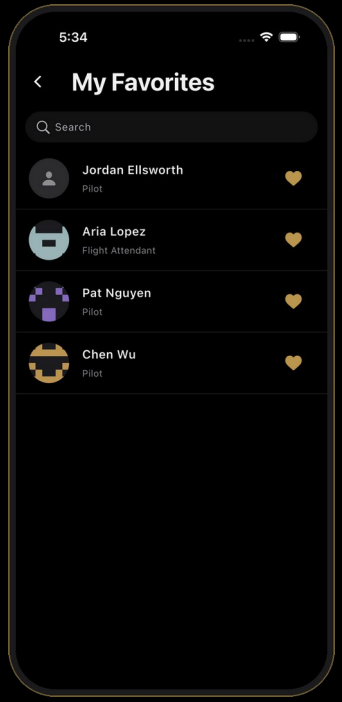

Network & trust

Keep good crew one tap away.

Never lose a good contact

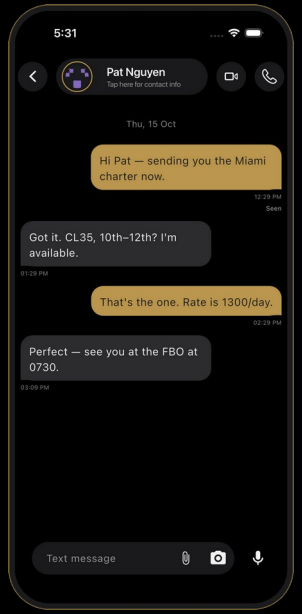

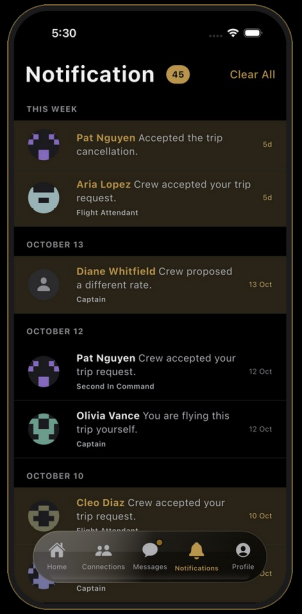

Met them at training. Booked them months later.

- **Connections and requests**
- **Favorites for quick invites**

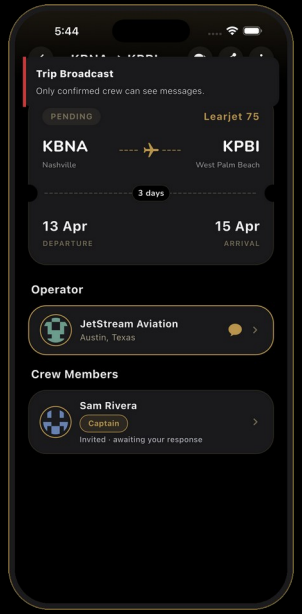

Talk and stay in sync

Direct messaging

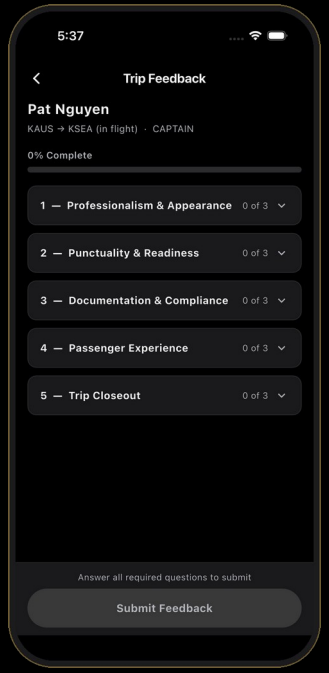

Real-time notifications

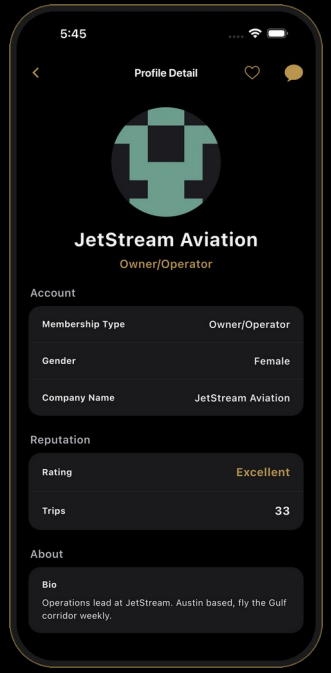

Trip broadcasts

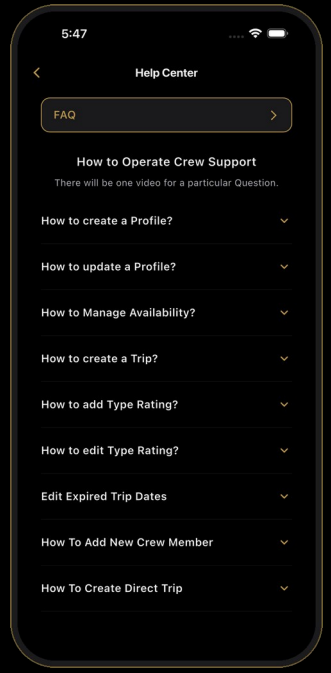

Quality built into every trip

Five-point trip feedback

Ratings and trip history

In-app help and FAQs

Built for scale and security

Modern stack, privacy by design

Flutter

One codebase, iOS and Android

Python FastAPI

Fast, modern API backend

AWS cloud

Secure, scalable hosting

Push notifications

Real-time alerts on device

Privacy controls

- Role-based profile visibility
- Opt-in calendar sharing
- Owner-controlled trip messaging

Coming next: Credentials Vault

Documents shared on the crew member's terms

1

Crew uploads

Passport, medical, certificates

2

Operators see

"On file" badge only

3

Crew authorizes

Release per request

4

Operator reviews

One standard format

One place. One format. Crew-approved.

Roadmap

Live now

- iOS and Android beta
- Trips, search, network
- Messaging and feedback

Next
